

# SUPER TECHNO 15

CRANES

**WHITES**  
SPECIALTY EQUIPMENT

The award-winning Super Technocrane set the standard for articulating cranes and is the system by which all others are measured. The Super Techno 15 is the smallest in the Technocrane line-up but delivers the same precision and functionality of its larger counterparts. Its small foot print makes it ideal for tight locations and studio work. It can be outfitted with any of the standard remote heads available at William F. White, stabilized or non-stabilized.

## Super Techno 15 Quick Specs

Max. Leveling Head Height	15'
Max. overall length	19'10"
Max. reach from fulcrum	13'7"
Min. overall length	8'10"
Min. reach from fulcrum	3'4"
Telescopic travel	10'3"
Telescope speed	1.7m/sec
Length of base	3'7"
Width of base	2'6"
Max. height at fulcrum	7'2"
Min. height at fulcrum	6'
Fulcrum Vertical Travel	1'2"
Weight (w/o head or c.w.)	708 lbs
