

BIGBEE MOTORIZED YOKE

A SUNBELT RENTALS
COMPANY

The Big Bee is a remote-controlled motorized yoke for mounting large daylight and tungsten fixtures to studio grids and aerial lifts. Fully DMX compatible, you can pan, tilt and focus your light from your board, your tablet or your phone.

When paired with a Sunbelt Rentals aerial work platform with the Quick Mount system, you can easily and safely get your light up in the air and where you need it.
