

CAMERA CAR - TYPE ONE

CAMERA CAR

WHITES SPECIALTY EQUIPMENT

Introducing the new Type One Camera Car. Completely custom built with no detail over-looked. This vehicle is extremely comfortable with oversized cab for three people plus the driver. This 'state-of-the-art' Camera Car is powered by a 6.6L Duramax Diesel with 650 lb-ft of torque. Incorporated in its design is a fully-adjustable air ride suspension, in-cab monitors, Clear Com communication system, super quiet, environmentally friendly 500 Amp 60kW crystal sync generator (single or three phase) and two 2500 Watt true sine wave inverters. There are five shooting platforms, camera rails, four way leveling heads and wide assortment of speed rail fittings and rigging hardware/options. The large rear and top decks are perfect platforms for operating a variety of Whites articulating and fixed length cranes including the Super Techno 15, 22 or 30 and the Scorpio 23 or 30.
