

COMMANDER

CAMERA CAR

WHITES SPECIALTY EQUIPMENT

The Whites Commander is a fast, agile, compact camera platform built on and off road applications. The Commander is ideal for multiple camera application; steady cam, hand held, hard mounted, and remote heads. There is a custom-built camera post with an isolation dampener for stabilized or non-stabilized remote head applications. The post is easily adjusted for varying heights, or for rear/side shooting positions. Integrated speed rail makes operator seating/shooting positions quick and safe. All riders are provided with four-point race harnesses and safety helmets with voice activated communication.
