# MOVIEBIRD 24

## CRANES

The Moviebird 24 hits a sweet spot between the 17' and 30' versions. An additional articulating 7' section gives the user that extra reach with a minimal compromise in its overall dimensions. In fact the 24 uses the same small foot print dolly base as the 17. As all Moviebird cranes it features a patented belt drive system for safety and ultra smooth operation.

### Moviebird 24 Quick Specs

Max. lens height (underslung)	20'3"	6.2m
Max. overall length	29'3"	9m
Max. reach from fulcrum	23'	7m
Min. overall length	11'	3.4m
Min. reach from fulcrum	4'8"	1.4m
Telescopic travel	18'4"	5.6m
